

# Take Control of Deliveries and Increase Profits

## Ecogreen Tank Monitor – For Commercial Tanks of All Sizes

### Reduce Your Costs

With a view of your fuel levels and usage history, you'll be able to manage the timing of your orders and deliveries based on true needs, not guesswork. Take control of your fuel and avoid costly run-outs!

### Manage Your Inventory

You rely on your inventory, so make it easier to manage. View current fuel levels and historical data to predict needs so you can place orders only when needed. This prevents unnecessary delivery costs and avoids unwanted downtime.

### Benefits:

- More Updates – Tank level and location information updates every two hours
- More Information – Easily access tank data, usage history, and days-to-empty
- More Alerts – Stay informed with unlimited text and email alerts
- More Versatility – Available for diesel, gasoline, propane, lubricants, DEF, water, waste liquids, agrichemicals
- More Reliability – Solar panel for increased battery life.
