

Wireless Tank Level Monitoring

An Added Benefit From Adams Petroleum To Anticipate Your Needs!

Peace of Mind.

Using powerful, real-time information Adams Petroleum anticipates your fuel needs with accuracy -providing you with an unparalleled advantage.

Convenience with the Focus on Your Business!

Put an end to the administrative time analyzing your fuel needs and calling for a delivery.

Focus on Safety and Lower Manpower Costs!

Eliminate the need to send employees to take "stick" readings. Checking tank levels manually means increased labor costs and potential safety issues.

Fewer Work Interruptions.

Less truck deliveries with fewer invoices to process.

Powerful with frequent readings and low level alerts, Adams Petroleum closely monitors your tank levels, fuel usage and GPS coordinates.

Solar Powered & Wireless, No electricity and No battery changes!

Simple! Adams Petroleum handles the quick and easy installation.

Durable withstands severe weather

Versatile and Reliable for high usage or tanks with unpredictable usage
